## **Course Description**

This course will work to develop the skills necessary in the analysis, planning, communication and execution of business and change strategy in today's evolving world. We will take a "learn by doing" approach with an overall theme of business strategy, communication, and the future of work. We will use real life cases and methodologies to focus on translating complex business needs into practical, flexible, and sustainable business solutions that create a positive and effective end user experience. Using a variety of resources and tools we will explore trends relating to the future of work and how best to pivot and adjust as needed striving for optimal ROI.

## **Course Learning Outcomes**

This course aims to provide a competitive advantage for students interested in the synergy of business and technical engineering strategies and program management. Students who successfully complete this course will gain skills in the following subjects, acquiring a solid business foundation as well as effective consultative approach:

- Principles of business analysis and strategy through identification of evolving stakeholder needs, with a focus on approaches for thoughtful and customized execution as well as how to maintain the best interests internally and externally while building professional credibility and relationships.
- An introduction to business communication with an emphasis on skills necessary to translate and explain technical concepts to non-technical stakeholders, including information exchange and how to optimize delivery of concepts to diverse audiences.
- Innovation and design-thinking skills using context management, with a focus on outcome orientation and strength to pivot and flex (bring to action/understand the context); this will aim to strengthen students' abilities to pilot and test through analysis of various concepts and subsequent application of these ideas to non-technical oriented functions.
- Concepts in problem-solving, including how to foster the ability to anticipate issues and opportunities, adopt holistic and unbiased opinions in evaluations and assessments, formulate appropriate questions, and gain an ability to switch comfortably between focused and helicopter views

## Attendance/Late Work Policy

### Attendance Policy

Students registered in MGEN courses (INFO, CSYE, and DAMG) are allowed **a maximum of 2 absences per course, with 3 or more absences resulting in an automatic 'F' for that course.** Students are expected to inform their instructors of any absences in advance of the class; if a student is sick long-term or experiences a medical issue that prevents class attendance, it is strongly encouraged that they speak with their Academic Advisor ([coe-mgen-gradadvising@northeastern.edu](mailto:coe-mgen-gradadvising@northeastern.edu)) to learn more about the Medical Leave of Absence. Should a student anticipate being unable to attend 3 or more classes, they should discuss their situation with their Academic Advisor to explore other types of leave in accordance with the University's academic and global entry expectations. International students should review the Office of Global Services webpage to understand their visa compliance requirements.

Teaching Assistants (TAs) or Instructional Assistants (IAs) will be present at each class to collect student attendance.

### Late Work Policy

Students must submit assignments by the deadline in the time zone noted in the syllabus. Students must communicate with the faculty prior to the deadline if they anticipate work will be submitted late. Work submitted late without prior communication with faculty will not be graded.

## End-of-Course Evaluation Surveys

Your feedback regarding your educational experience in this class is particularly important to the College of Engineering. Your comments will make a difference in the future planning and presentation of our curriculum.

At the end of this course, please take the time to complete the evaluation survey at <https://neu.evaluationkit.com>. Your survey responses are **completely anonymous and confidential**. For courses 6 weeks in length or shorter, surveys will be open one week prior to the end of the courses; for courses greater than 6 weeks in length, surveys will be open for two weeks. An email will be sent to your Northeastern University Mail account notifying you when surveys are available.

## Academic Integrity

A commitment to the principles of academic integrity is essential to the mission of Northeastern University. The promotion of independent and original scholarship ensures that students derive the most from their educational experience and their pursuit of knowledge. Academic dishonesty violates the most

fundamental values of an intellectual community and undermines the achievements of the entire University.

As members of the academic community, students must become familiar with their rights and responsibilities. In each course, they are responsible for knowing the requirements and restrictions regarding research and writing, examinations of whatever kind, collaborative work, the use of study aids, the appropriateness of assistance, and other issues. Students are responsible for learning the conventions of documentation and acknowledgment of sources in their fields. Northeastern University expects students to complete all examinations, tests, papers, creative projects, and assignments of any kind according to the highest ethical standards, as set forth either explicitly or implicitly in this Code or by the direction of instructors.
