- Principles of Accounting, Volume 2, Managerial Accounting** ([free online textbook](#))
- Reading Materials:** The Rise of GenAI: Exploring its rapid emergence and transformative impact on accounting and finance

3. More course information including learning outcomes ([link](#) ↓)

4. Course Activities and Assignments

- Lectures:** because this course is lecture-based, you will benefit most by attending and participating in the class periods. I will endeavor to make the lectures interactive and in-class exercises will be given to reinforce your understanding of the material.
- Reading assignments** to accompany the lectures are listed in the “Course Schedule” section below.
- Homework assignments** are given for each module. Complete the assignments independently. Review course material and complete the relevant problems after each class session. Do not wait till the end of the module to start the homework.
- Quizzes:** quizzes in multiple-choice format, **covering accounting information systems (textbook 1)**, will be given to evaluate your understanding and retention of course material covered in the reading assignments.
- Final Exam:** the final exam will be administered during the final exam period designated by the University and specified in the University academic calendar. Please refer to the “Course Schedule” section for the final exam time and date. **Do not make travel plans that conflict with the scheduled exam.**
